

Shenzhen SOSEN Electronics Co.,Ltd

Product Discontinuance Notice

Dear valued partners,

Thank you for your trust and support for SOSEN.

In order to comply with the development of the market and the updates of global regulations and new energy standards, SOSEN provides customers around the world with efficient, stable, reliable, and most cost-effective LED drivers, and constantly introduces new ones to the markets.

When some products enter the end of the product life cycle, it also represents a significant decline of market demands of the products and will be replaced by a newer and better generation. We hope to gradually phase out the following models in a gradual manner, so that more cost-effective products can be successfully introduced to customers. The following is the list of models that will enter the discontinued. If there is still demand for discontinued models, please stock up before the last order date, and prepare the upgrading and selecting alternative products.

The discontinued period is 12 months, and the last order date and shipment date are listed in the "SOSEN Product Discontinued Model List". No orders will be accepted after the last order date.

For questions or concerns regarding this notification, please contact your SOSEN sales office or customer service representative.

Sincerely,

Shenzhen SOSEN Electronics Co.,Ltd

August 27, 2024
